ABSTRACT

This report presents the Illinois governor's fiscal year 2001 budget, focusing on higher education. The governor has proposed a fiscal year 2001 state budget totaling \$46.5 billion. The budget includes \$3.4 billion for higher education operations and grants, which is an increase of \$181 million, or 5.7 percent, over fiscal year 2000. This report compares fiscal year 2000 general funds appropriations and the governor's fiscal year 2001 budget by major program areas. It also offers a budget summary of higher education operations and grants, including such initiatives as: \$7.3 million for partnerships between higher education and elementary/secondary schools; \$24.6 million to increase access to higher education; \$11.7 million to increase the number and diversity of citizens in training and education programs; and \$5.9 million to improve the quality of technology instruction. Capital budget improvements include \$77.6 million for new higher education facilities. Three appendixes, which comprise the bulk of the report, present data tables on: (1) allocation of the governor's fiscal year 2001 budget (higher education operations and grants); (2) allocation of the governor's fiscal year 2001 budget (public university detail); and (3) the governor's fiscal year 2001 budget (higher education capital improvements projects).

**STATE OF ILLINOIS
BOARD OF HIGHER EDUCATION**

THE GOVERNOR'S FISCAL YEAR 2001 BUDGET

On February 2, 2000, Governor Ryan, in his annual budget address to the General Assembly, proposed a fiscal year 2001 state budget totaling \$46.5 billion. The budget includes a total of \$3.4 billion for higher education operations and grants, an increase of \$181.0 million, or 5.7 percent, over fiscal year 2000. The operations and grants budget for higher education recognizes \$536.9 million in locally held public university income funds. The capital plan outlined in the Governor's budget totals \$171.9 million for 23 capital projects, capital renewal, and infrastructure digitalization of six public television stations.

The Governor's budget includes general funds appropriations of \$22.2 billion, an increase of 4.5 percent over fiscal year 2000 appropriations. Education and job training are identified as the highest priorities in the budget, with \$528.0 million in new state general funds allocated for elementary, secondary and higher education and job training programs. This represents 56 percent of the increase in general funds appropriations, fulfilling Governor Ryan's commitment that at least 51 percent of new revenues each year be allocated for education and job training. The Governor's budget fully funds the requests of the Board of Higher Education and the Illinois State Board of Education for the first time in Illinois' history.

A summary of fiscal year 2000 general funds appropriations and the Governor's fiscal year 2001 budget by major program area follows.

**THE GOVERNOR'S FISCAL YEAR 2001 BUDGET
GENERAL FUNDS**

(dollars in millions)	<u>FY2000*</u>	<u>FY2001</u>	<u>Change</u>	
			<u>Dollar</u>	<u>Percent</u>
Higher Education	\$2,350.7**	\$2,504.9	\$154.2	6.6%
Elementary/Secondary Education	5,577.0	5,947.1	370.1	6.6
Public Aid	4,867.9	4,889.3	21.4	0.4
Human Services	3,485.5	3,673.1	187.6	5.4
Children and Family Services	925.3	925.6	0.3	-0-
Corrections	1,125.7	1,196.8	71.1	6.3
All Other	<u>2,909.0</u>	<u>3,051.2</u>	<u>142.2</u>	<u>4.9</u>
Total	\$21,241.1	\$22,188.0	\$946.9	4.5%

* Includes \$318.3 million in proposed supplemental appropriations.

** Includes \$748,500 in capital reappropriations. Excluding these amounts results in a fiscal year 2000 allocation of \$2,349.9 million and a fiscal year 2001 increase of \$155.0 million.

The Governor's budget proposes to use fiscal year 2000 tobacco settlement revenues of approximately \$400 million to establish a Revenue Stabilization Fund, with spending from the fund limited to emergency or economic situations that threaten Illinois' financial stability. The budget plan also proposes to use approximately \$122 million of the state's fiscal year 2001 tobacco settlement funds: \$106 million to fund programs providing health and medical services and tobacco and substance abuse prevention initiatives, and \$16 million to support the Governor's technology initiative.

Governor Ryan also proposed a multi-year plan to invest \$850 million in science and technology programs. In fiscal year 2001, the Governor is recommending that the state expend nearly \$62 million in general funds and \$16 million in tobacco settlement funds. These funds will support facilities and programs in state agencies and higher education to advance and promote scientific and technological research and maximize economic development opportunities that arise as a result of advances in technology. Among the projects to be funded through this multi-year initiative is a new biomedical research facility at Northwestern University (in conjunction with private and federal sponsors) and the facilities for the following initiatives at the University of Illinois at Urbana-Champaign: the Post-Genomics Institute, the National Center for Supercomputing Applications, and a research incubator.

Budget Summary **Higher Education Operations and Grants**

Governor Ryan fully supported the Board of Higher Education's budget recommendations that focused new resources on the programs and activities necessary to implement the goals of *The Illinois Commitment*. The Governor's budget, summarized on Table A, includes \$2.5 billion in state general funds for higher education operations and grants, \$155.0 million, or 6.6 percent, over fiscal year 2000 appropriations. Total fiscal year 2001 operations and grants recommended by the Governor, including universities income funds and other appropriated funds, are \$3.4 billion, an increase of \$181.0 million, or 5.7 percent. Table B summarizes program initiatives recommended by Governor Ryan that were not included in the Board's recommendations.

Tables 1 through 18 in Appendix A present detailed information on the fiscal year 2001 budget for higher education operations and grants. Public universities program detail is presented in Appendix B.

The budget proposed by Governor Ryan endorses the Board of Higher Education recommendations and advances the goals of *The Illinois Commitment: Partnerships, Opportunities, and Excellence* in fiscal year 2001. The fiscal year 2001 budget places priority on providing career scholarships to high school graduates who choose not to pursue a college degree; continued support for the Illinois Century Network and the Illinois Virtual Campus; funding for recruitment and retention of faculty and staff and for competitive salaries; and increasing the state's scholarship programs. The allocation of new funds supporting the six goals of *The Illinois Commitment* are highlighted below:

- **\$34.4 million for higher education to help Illinois business and industry sustain strong economic growth**, including \$8.9 million to increase the number of graduates in information technology disciplines, \$8.7 million to promote business development, \$4.8 million to strengthen programs with high occupational demand, and \$12.0 million to provide

scholarships for students seeking careers in occupational programs. These amounts include funding recommended in the Governor's budget for the Post-Genomics Institute at the University of Illinois at Urbana (\$1.6 million), the Illinois Institute for Entrepreneurship at Illinois State University (\$100,000), Career Academy Grants (\$169,500) and Rural Health and Telemedicine initiatives (\$900,000 and \$750,000, respectively) at the Southern Illinois University School of Medicine.

- **\$7.3 million for higher education to join elementary and secondary schools to improve teaching and learning at all levels**, including \$3.3 million to improve teacher preparation and development and \$4.0 million to improve school-college cooperation, which includes \$853,900 to create the Illinois Virtual High School. Included in the \$3.3 million to improve teacher preparation and development is \$400,000 recommended by Governor Ryan for an Excellence in Science and Technology initiative at the Illinois Math and Science Academy.
- **\$24.6 million to ensure no Illinois citizen will be denied an opportunity for a college education because of financial need**, including \$21.9 million for the Monetary Award Program, the state's largest needs-based aid program, \$2.3 million for Merit Recognition Scholarships, and \$390,000 for other grant programs to improve opportunities for a college education.
- **\$11.7 million for Illinois to increase the number and diversity of citizens completing training and education programs**, including \$10.3 million to expand access by improving the quantity and quality of off-campus programs, which includes \$1.3 million for the Illinois Century Network and \$3.7 million for the Illinois Virtual Campus, and \$1.4 million to promote and support diverse student populations.
- **\$79.7 million for Illinois colleges and universities to hold students to even higher expectations for learning and to be accountable for the quality of academic programs and the assessment of learning**, including \$5.9 million to improve the quality of technology instruction, \$20.4 million to improve general academic programs, \$14.5 million for the second year of the five-year plan to achieve salary competitiveness for faculty and staff through improved recruitment and retention, and \$38.9 million for base support including cost and salary increases at public universities and base funding grants at community colleges.
- **\$23.3 million for Illinois colleges and universities to continually improve productivity, cost-effectiveness, and accountability**, including \$1.0 million for grants to promote performance, \$3.6 million for a statewide deferred maintenance plan, \$8.2 million for increased retirement funding, and \$10.5 million for other priorities such as the operation and maintenance of new space at public universities.

The Governor's Budget for Higher Education Capital Improvements

Governor Ryan's fiscal year 2001 capital plan totals \$171.9 million for higher education capital improvement projects. Table C shows the Board's priority list and the projects included in the Governor's budget.

The Governor's budget includes funds for major remodeling projects to upgrade existing buildings and projects to improve campus utility infrastructure and make site improvements. The budget also includes funds for the planning and construction of new facilities. The Governor's capital budget includes:

- \$30.0 million in capital renewal projects including funds for remodeling and infrastructure improvements that maintain and protect the state's infrastructure investment.
- \$64.3 million for Regular Capital projects supporting major remodeling and infrastructure upgrades.
- \$77.6 million for Regular Capital projects supporting planning, construction, and equipment funds for new higher education facilities.

The Governor's capital plan provides funds to continue planning and begin improvements to the Fine Arts Center at Eastern Illinois University while the Board of Higher Education had recommended fully funding construction. The budget includes \$30.0 million of the \$60.0 million recommended by the Board for capital renewal projects at public universities and community colleges. In addition to projects included in the Board of Higher Education's recommendation, the Governor's capital plan includes \$27.0 million to expand the Combined Laboratory for the Southern Illinois University School of Medicine, the Department of Public Health, and the Environmental Protection Agency. Funds totaling \$4.9 million are included to provide digitized infrastructure for six public television stations and \$7.0 million is provided to construct a workforce development center at Kankakee Community College. Detailed information on the Governor's budget for higher education capital improvement projects is provided on Tables 1 through 15 in Appendix C.

In addition to the \$171.9 million for capital projects, the Governor's budget includes \$5.0 million in tobacco settlement funds, appropriated to the Capital Development Board, for debt service grants to Northwestern University to construct a bio-medical research facility and to the University of Illinois at Urbana-Champaign to construct a Post-Genomics Institute, a facility for National Center for Supercomputing Applications, and an incubator facility. These facilities are proposed as part of the Governor's Illinois *VentureTECH* Program.
